

# TRANSPORTATION, DISTRIBUTION & LOGISTICS

Do you like math? Do you like working outside? Do you like working with your hands?  
Do you like working with a team?

## Look around you...

Transportation is the act of moving goods and products from one place to another. This can include transporting items through air, land, or sea. Logistics is broader, and includes all your procedures for making sure your customers get their goods on time. Every industry in the world relies upon professionals in Transportation, Distribution & Logistics to ensure that they have what they need to do their jobs. From life saving medication in hospitals, to the steel needed in manufacturing, none of it can arrive with out the expertise of these individuals.

## What It Takes:

- Attention to details
- Ability to Follow Directions and Work as a Team
- Foundational Skills in Math and Technical Concepts
- Planning and Organizational Skills
- Punctual and Dependable

## Check out this Cool Career...

### Commercial Truck Driver

Commercial truck drivers transport goods to and from our community every day, keeping our stores and restaurants filled. Without these everyday working-class heroes, we would be limited to the goods produced in our local communities. This career requires the completion of a short certificate and a clean driving history. Safety on the road is the most important aspect of a truck driver's job.
